All product and price information is correct at the time of publication. However, details may change, so for the latest updates including new products or specification changes please visit www.sterlingsep.com, where you can download the newest version of this list, as well as brochures and manuals in our Support section. Significant updates will always be communicated directly.

While every effort has been made to ensure the accuracy of this document, errors may occasionally occur. Sterling Separation Ltd reserves the right to review and, if necessary, refuse orders if any incorrect information is identified. We accept no liability for costs arising from errors in this document, or from its misuse. If you are uncertain about any price or specification, please contact us directly for confirmation.

ABOUT US

Sterling Separation Ltd is a UK based leader in condensate management, delivering innovative oil/water separation, filtration, and condensate drainage solutions for industrial compressed air systems worldwide. Our reputation is built on three core pillars: uncompromising reliability, technical expertise, and a relentless commitment to customer support.

With decades of engineering experience, Sterling Separation combines proven performance with forward thinking product design, ensuring regulatory compliance and minimising operational costs for our customers. Every solution is backed by dedicated aftersales support and a deep understanding of the unique challenges facing OEMs, distributors, and end users in the compressed air industry.

We are proud to serve customers all over the globe, partnering with some of the world's most respected brands. Our mission is simple: to provide the most robust, cost effective, and easy to service condensate management products on the market.

Mike Amphlett
Joint Managing Director

Mike Amphlett is Joint Managing Director at STERLING Separation Ltd and STELSEP (USA), steering the business with a strong emphasis on engineering integrity, global standards, and customer assurance. Mike champions robust design and full compliance in every solution, providing clients with long term reliability and expert guidance they can trust.

Richard Turner
Joint Managing Director

Richard Turner, Joint Managing Director, is recognised for his analytical approach and depth of technical knowledge in both manufacturing and distribution. He works side by side with customers to develop practical, cost effective answers to their challenges ensuring STERLING's solutions are always one step ahead of industry needs.

Dennis Winder
Sales Director

As STERLING's Sales Director, Dennis Winder brings a rare blend of real-world engineering experience and straightforward advice to every client. Decades on the tools have made Dennis the field expert customers rely on for clear explanations, workable fixes, and honest, technically sound recommendations no jargon, no fuss.

Andrew Gillen
Operations Manager

Andrew drives continuous improvement and customer advocacy throughout STERLING's operations. Known for building businesses and bringing the client's perspective to every decision, Andy specialises in turning complex challenges into streamlined, high value customer outcomes. His approach ensures the company is responsive, agile, and always raising the bar for service.

John Gillen

Logistics & Quality Manager

John Gillen is the detail driven force behind STERLING's dependable deliveries and high product standards. With a background in engineering and supply chain management, John ensures each order is fulfilled accurately, every product meets strict quality checks, and customers experience reliability from first contact to installation.

Stacey Wilkinson

Customer Success & Fulfilment Lead

Stacey Wilkinson makes every client interaction count as STERLING's Customer Success & Fulfilment Lead. With a friendly, solutions oriented approach, Stacey anticipates customer needs, addresses issues quickly, and keeps the fulfilment process smooth so clients can trust that every detail is managed, start to finish.

Mark Wood

Logistics & Fulfilment Lead

Mark Wood combines practical logistics know how with a commitment to seamless fulfilment. Drawing on years of hands on experience, Mark anticipates challenges before they impact clients and ensures that products reach customers efficiently and reliably. His proactive mindset guarantees that every order arrives as promised, with no surprises.

STERLING OIL WATER SEPARATORS

STERLING
separation Ltd

STERLING Oil Water Separators are engineered for uncompromising efficiency and reliability, helping customers stay compliant with the latest environmental regulations. By blending proven principles with innovative features and robust quality, STERLING delivers solutions that not only meet but often exceed the demands of both customers and the wider market.

CS75

The CS75 stands as the industry's most compact and cost effective serviceable oil/water separator, with a proven track record in thousands of installations. It's the ideal choice for compressors up to 11kW, offering exceptional performance in a remarkably small footprint.

CSR150 to CSR3000

Our CSR range is purpose-built for flexibility and ease of use in real-world conditions. Each model is designed for straightforward selection, installation, and maintenance, featuring clear time in service indication and adaptable configurations to maximise available space even in the most constrained plant rooms. With five models covering compressors from 15kW up to 450kW, there's a solution for every application.

CS100IBC & CS200IBC

For large scale and demanding environments, the CS100IBC and CS200IBC set the benchmark for efficiency and service life. These IBC based separators harness the same advanced technology as our core range, providing an answer to high volume condensate challenges with up to 16,000 hours between services. Available in two sizes, they are the go to choice for installations from 500kW to 1000kW.

STERLING Separator Dimensions

Sterling Oil Water Separators			Models available in blue, yellow or grey

Condensate Drains

Timer Controlled Drains

TD15A

TD15B

First, choose the right type of drain for your application
Take a look at the table below for at-a-glance benefits of each type

Type	Purchase Cost	Running Cost	Ease of Installation	Maintenance	System alarms	Comments
Timer controlled	Low	High	Very flexible	Low	None	Will waste a lot of compressed air
Float operated	Low / medium	Medium	Clean sites are best	Medium	Usually none	Not ideal on old or corroded plant
Hybrid	Medium	Low / medium	Very flexible	Low	None	A good, well balanced solution
Zero loss electronic	Relatively high	Low	Follow the book, it's important	Medium	From simple to comprehensive	Long term cost saver when installed correctly and serviced regularly

Part code	Description	Pressure	Interval time	Open time	Price	10 off (ea)
TD15A_220V_1/2BSP	Timed drain integrated BVS - 1/2BSP - 220vac (CS720 equiv)	0-16 bar	0.5 - 45 min	0.5 - 10 sec	£49	£46

Heavy Duty float controlled autodrains

MZL1000 – Extra Heavy Duty Mechanical Zero Loss Drain

The STERLING MZL1000 is an extra heavy-duty mechanical float drain engineered for high-performance condensate removal in demanding compressed air systems. Designed for systems up to 1000CFM (28m³/min), the MZL1000 delivers reliable, maintenance-friendly operation across a wide pressure range (0–16bar).

KEY FEATURES:

- Dual 20mm inlets and 8mm outlet with supplied push-fit hose adaptor.
- Supplied complete with in-line strainer, isolating valve, connecting union, and extension pipe.
- Packaged as a ready-to-install solution—everything needed is included in the box.
- Suitable for a wide range of industrial applications.

Part code	Description	Working Pressure	Capacity	Price (each)	Price 5+ (ea)
MZL1000	Automatic Drain Valve	0-16 bar	1000CFM / 28m ³ /min	£135	£120

CS402

Float drain for use on a drip leg etc. Features a polycarbonate bowl protected by an aluminium housing.

CS20B

Mechanical float drain for general use including receivers and distributed sites where there is no power. Heavy duty body and rugged internals.

Part code	Description	Pressure	Capacity	Price
CS402	CS 402 - 1/2 Mechanical float drain	0-16 bar	< 400 CFM < 12 m ³ /min	£49
CS20B	CS 20B - 1/2 Heavy duty float drain	0-16 bar	< 4000 CFM < 120 m ³ /min	£99

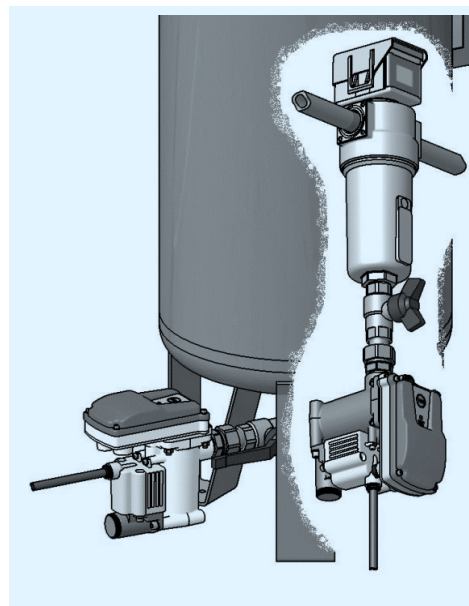

Electronic Zero-loss drains (cont'd)

EMD 12, 25, 75 & 150

The STERLING EMD is a high-performance electronic zero-loss condensate drain, engineered for maximum reliability and minimal operating costs. Its modular design features an accessible strainer that can be cleaned without removing the unit, while the cost-effective service module is quick and easy to replace.

The EMD***A model includes an integrated power connection for remote alarm monitoring.

For installation flexibility, EMD drains can be mounted vertically (ideal for standard use beneath air receivers) or horizontally (as shown) to simplify integration with filters and other equipment. In applications where condensate carries substantial debris, vertical installation is recommended for optimal performance.

Electronic Zero-loss drains (cont'd)

ZL1300 & ZL5000

Air operated diaphragm valve for high flow and reliability

STERLING ZL1300 and ZL5000 are precision-engineered electronic zero-loss condensate drains, delivering exceptional reliability and industry-leading performance for demanding applications. Designed for capacities up to **1300CFM (37m³/min)** and **5000CFM (140m³/min)** respectively, both models ensure long service life and remarkably low operating costs.

Standard features include an integrated strainer, local alarm, override test button, and optional remote alarm contacts, all housed within an **IP65-rated** enclosure. With rapid payback through reduced compressed air loss, the **ZL1300 and ZL5000** set the benchmark for quality and efficiency in condensate management.

Part code	Description	Capacity	Max pressure	Top Inlet	Price

Why you need the best condensate drains ?

The potential condensate produced from a 75kW compressor system at 7.5 bar g working pressure is shown in the table below.

The variation at different ambient temperatures is significant, and is the reason that automatic zero loss drains are the most efficient method of condensate removal.

75kW compressor - 825 m3/hr - 7.5 bar g discharge pressure						
Ambient temp	RH %	Discharge temp	Water vapour entering compressor (L/hr)	Liquid water removed at the aftercooler (L/hr)	Remaining water vapour entering the compressed air system (L/hr)	Total water vapour entering the compressed air system per year (L)
10°C	65	20°C	4.88	1.67	3.21	28,043
15°C	65	25°C	6.82	2.26	4.56	39,836
20°C	65	30°C	9.41	3.03	6.38	55,736
25°C	65	35°C	12.85	4.03	8.82	77,052
30°C	65	40°C	17.42	5.29	12.13	105,968

STERLING Premium & Original Filter Housings & Elements

STERLING
separation Ltd

STERLING Premium & Original Filter Housings & Elements

Know your air quality

ISO 8573-1

ISO 8573-1 is the international standard for compressed air purity (quality), which provides the user with a way of specifying an air purity level required for the entire compressed air system and/or for individual points, based upon application requirements.

It also allows equipment manufacturers to easily show and compare product performance to meet the end users' air purity (quality) standard.

Different terminology and purification equipment will be required depending upon the type and phase of contaminant to be removed.

In ISO 8573-1, compressed air contaminants are grouped into particulate, water, and total oil. Different levels of contamination are then assigned 'purity classes'.

When using ISO 8573-1 to define air purity (quality) required at a point of use, the specification should be written as follows.

First the standard (ISO8573-1), then the year (revision) stated, then the purity classes each separated by a colon. e.g. ISO8571-1:2010:[A:B:C:], where A is the purity class for particles (left column in table), B is the purity class for humidity and liquid water (left column in table), and C is the purity class for oil (right hand column in the table).

ISO8573-1:2010 CLASS	Solid Particulate				Water		Oil
	Maximum number of particles per m³			Mass concentration mg/m³	Vapour pressure dewpoint	Liquid g/m³	Total Oil (aerosol liquid and vapour)
	0.1 - 0.5 micron	0.5 - 1 micron	1 - 5 micron				mg/m³
0	As specified by the equipment user or supplier and more stringent than Class 1						
1	≤ 20,000	≤ 400	≤ 10	-	≤ -70°C	-	0.01
2	≤ 40,000	≤ 6,000	≤ 100	-	≤ -40°C	-	0.1
3	-	≤ 90,000	≤ 1,000	-	≤ -20°C	-	1
4	-	-	≤ 10,000	-	≤ +3°C	-	5
5	-	-	≤ 100,000	-	≤ +7°C	-	-
6	-	-	-	≤ 5	≤ +10°C	-	-
7	-	-	-	5-10	-	≤ 0.5	-
8	-	-	-	-	-	0.5-5	-
9	-	-	-	-	-	5-10	-

Supporting Legacy and Innovation

STERLING's original filter range has long been a market leader, and we understand that switching from established systems can be challenging. That's why we continue to fully support our legacy product lines with in-stock housings and elements, ensuring ongoing value for existing customers.

Why Choose STERLING Premium Ranges ?

Easy 'click-to-lock' assembly

for straightforward installation and maintenance.

Colour-coded elements

for quick and accurate identification.

Double 'O' ring element seals

to ensure leak-free performance.

Supplied with differential pressure gauge

as standard.

Durable, plastic-coated exterior finish

for long service life.

Push-fit drain connections

included for convenience.

Competitive pricing

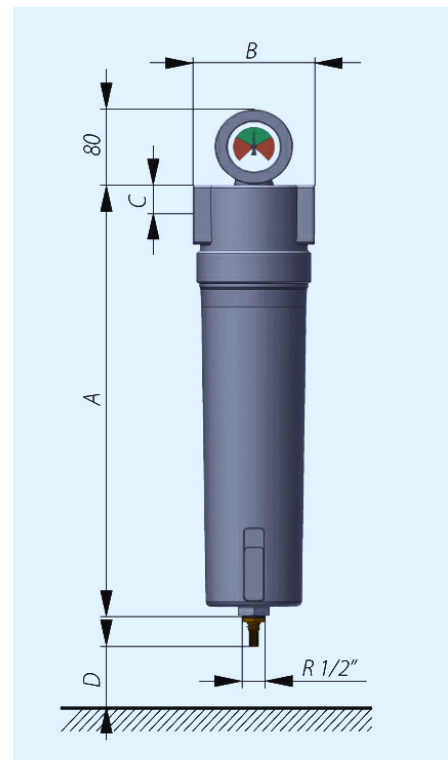

across the range.

Both our **Premium and Original filter ranges** deliver exceptional value and are supported with rapid supply, technical guidance, and full aftersales support.

NEW PRODUCT

OEM Housing Compatibility	Thread Size & Float Diameter	Sterling Part Code	1–9 Units	10–24 Units	25–49 Units	50+ Units
Fits all Atlas Copco Multi Air housings Post 2019	3/4 BSP	FDACMA3/4"	£41	£37	£35	£31

A range of float drains to fit various common OEM filter housings

Guide #	OEM Housing Compatibility	Thread Size & Float Diameter	Sterling Part Code	1–9 Units	10–24 Units	25–49 Units	50+ Units
1	STERLING Premium and Original ranges, Atlas Copco (pre-2014), Omega, MTA, CTA, Domnick/Parker Evolution, Zander GL, Sotras, Boge (pre-2021), OMI, Hiross, Fruilair, Ultrafilter 80 series, HPC (2012–2019), Comp-Air (2015–2022), Atlas Multi-brand (Abac, Worthington, Mark, Ceccato, Alup, CP, Puska) - pre-2014	½" BSP, 36.8mm	FD1/2"8PF	£41	£37	£35	£31
2	Old Atlas Copco+ and Multi-brand (Abac, Worthington, Mark, Ceccato, Alup, CP, Puska, Pneumatech)	3/8" BSP, 36.8mm	IFD-AC-G17	£41	£37	£35	£31
3	DH Oilx, A/C, Compair, Broomwade, Sullair, Hydrovane, Norgren — all pre-2013; Ingersoll Rand pre-2002; HPC pre-2012	M15.5x1.5, 38mm	IFD-DH-155	£17	£15	£14	£13
4	Zander (pre-GL), Boge (old), AFE, Hankison, Hi-Line, Alup/Almig, Kaeser (old), SPX, Flair, Knocks, Wilkerson	M14x1.25, 30mm	IFD-Z-14	£41	£37	£35	£31
5	Ultrafilter/Donaldson 90 series, SMC AF4000, Mikropor (old series)	M14x1.25, 38mm	IFD-UF-14	£17	£15	£14	£13
6	Walker (old), BEKO Clearpoint (original series)	M14x1.25, 38mm	IFD-W-14	£17	£15	£14	£13

Alternative Elements For OEM & Branded Filters

These are high quality alternative elements built with attention to the same international standards as the originals

We list below our most requested filter lines. Please note that many manufacturers' products will fit multiple different housing brands so if you can't find what you need please contact us - we can probably supply what you need!

42. ABAC

42. Air Filter Engineering

43. Alup

43-5. Atlas Copco

45. Beko

45-6. Boge

46. Compair Broomwade

46. Compair Hydrovane

47. Compair

48. Champion

49. CP

49. Donaldson

49. Domnick Hunter

50. Friulair

50. Gardner Denver

51. Hankison

51-2. Hiross

52. Hi Line Industries

52. HPC

53-4. Ingersoll Rand

55. Kaeser Filters

55. Mark / Ceccato

56. MTA

56. OMI

56. OMI ALP

57. Omega

57. Puska

57-8. Pneumatech

58. Sullair

58-9. Ultrafilter / Donaldson

59. Walker Filtration

60. Worthington

60. Zander

Please note that brand names in use on this price list are for identification purposes only, and do not indicate that STERLING Separation Ltd supplies service kits either manufactured by, or sold by those companies or brands whose names are used.

Refrigerated Air Dryers

 **airDRY**
by STERLING Separation

**Effective, efficient & economical
quality without compromise**

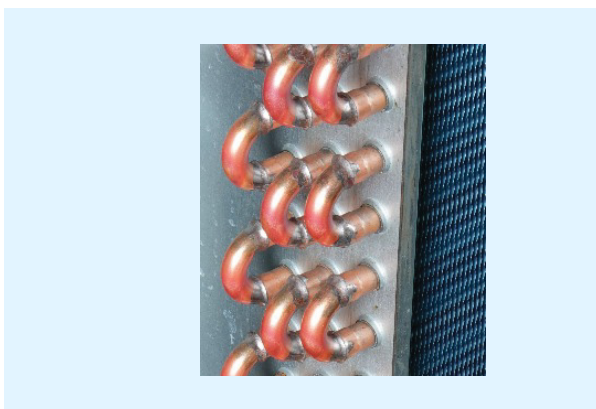

RD25 - RD1000 (12 sizes)

25 to 1000 sCFM / 0.65 to 26.8 m³/min

STERLING[®]
separation

General characteristics of the dryers

- Complies with all relevant industry and national standards
- Designed for high efficiency and easy maintenance
- Dewpoint range down to 2°C
- Rugged powder-coated exterior finish
- Great accessibility for easy maintenance
- All popular sizes held in stock for immediate delivery

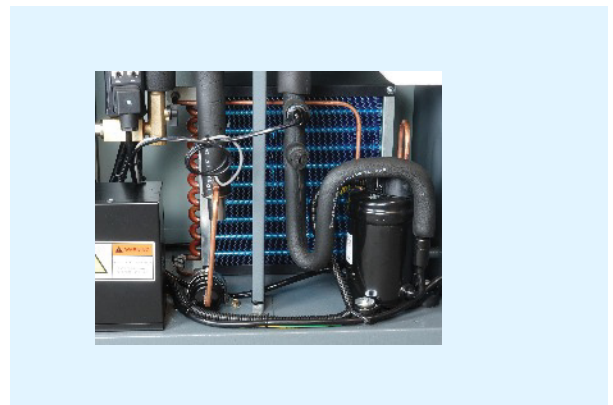

3 in 1 aluminium plate fin type heat exchanger

- >5 times transfer area compared to shell/tube type
- Efficient and rapid heat transfer
- Compact size
- Long life guaranteed

World-standard refrigeration system

- Component brands include Danfoss & Panasonic (model dependent)
- Rugged and fully enclosed
- Low noise & vibration at unobtrusive levels
- Using environmentally friendly R410a, R134a & R407c Refrigerants (Model dependent)

Full feature control system

- High- and low-pressure protection on refrigerant circuit
- Over current, over- & under-voltage protection
- Phase loss and compressor reverse protection
- Optional remote operation support via MODBUS

PREMIUM

Compressed Air Filtration Option

AirDRY refrigerated dryers can be supplied either with or without **STERLING's** PREMIUM line filters. Select the (F) option, and we'll supply our PREMIUM filters, complete with quality float drain and differential pressure gauge, with the dryer.

For details of these hi-spec filters, please go to

<https://www.sterlingsep.com/premium-filtration>

to see the video or download brochures.

Condensate Testing

STERLING operates a dedicated laboratory equipped with advanced instrumentation capable of detecting oil concentrations in water down to **+/- 1 part per million**.

To conduct a test—whether for routine installation checks or as part of a pre-quote assessment—we require a representative sample of at least **500ml** of condensate, along with basic installation details where relevant. Please contact our sales team for further guidance.

Testing is offered at a flat rate of **£50**, which includes a detailed printed report.

Important: This service is provided for general customer support. While all tests are conducted and reported with professional care, **STERLING** is not a certified laboratory. If the results are intended for legal, regulatory, or official compliance purposes, you must obtain independent, accredited analysis elsewhere.

Training

With decades of hands-on experience in condensate management, the **STERLING** team delivers practical, real-world training tailored to your needs.

We provide courses covering both general condensate management and in-depth product-specific knowledge. A typical session, focused on key operational principles and best practices, lasts between **2–3 hours**.

Training is available on-site by appointment, for individuals or groups (**sales, technical, or service teams**). Content and delivery are customised to your requirements.

All training is provided free of charge.

1. Application and Entire Agreement

These Terms and Conditions apply to all purchases of goods ("Goods") from Sterling Separation Ltd, registered in England and Wales (No. 05844056), registered office: 24 Longford Industrial Estate, Longford Road, Bridgtown, Cannock, WS11 0DG ("we", "us", "Supplier").

Acceptance of these Terms occurs when you accept our quotation, place an order, or accept delivery of the Goods—whichever is earliest. These Terms and any quotation constitute the entire agreement and override any other terms.

No terms proposed by the Buyer override these Terms, unless expressly agreed in writing.

2. Interpretation

"Business day" means any day except Saturday, Sunday, or bank holidays in England and Wales.

Section headings are for convenience only and do not affect interpretation.

Singular includes plural and vice versa.

3. Goods

Goods are described in our sales documents, unless expressly changed in writing. You acknowledge you have not relied on any other statement or representation.

We reserve the right to amend the Goods' specification to comply with legal or regulatory requirements.

4. Price & Payment

The price is set out in our current quotation or price list, or as otherwise agreed in writing.

We may adjust prices due to factors beyond our control, with a minimum 30 days' notice.

All increases will be communicated in advance.

Discounts are at our discretion and must be confirmed in writing.

Prices exclude packaging, transport, VAT, and any other taxes or charges, unless specified.

Payment is due by the last calendar day of the month following invoice date, unless otherwise agreed in writing.

Late payment may result in suspension of deliveries and interest charged at 5% above the Bank of England base rate.

Payment is to be made in GBP unless otherwise agreed.

All sums are payable without deduction, set-off, or withholding except as required by law.

5. Orders, Cancellation, and Alteration

Order details may change without notice. No offer to sell exists until expressly accepted.

Quotations are valid for 30 days unless withdrawn earlier or extended in writing.

Orders may be cancelled by either party prior to acceptance. Items made to order may incur a cancellation charge if production has started.

6. Delivery

Delivery is to the address stated in the quotation or as otherwise agreed. If no address is given, collection is required.

Unless otherwise agreed, delivery can occur at any time between 8am–5pm.

Failure to accept delivery may result in storage or redelivery charges and, after 10 business days, resale of Goods with you liable for any loss.

All delivery dates are estimates and time is not of the essence. We are not liable for delays due to circumstances beyond our control.

Goods may be delivered in instalments. Each instalment forms a separate contract.

7. Inspection and Acceptance of Goods

You must inspect Goods on delivery or collection.

Any damages or shortages must be reported in writing within 48 hours of delivery.

Returns will only be accepted for defective Goods and, if necessary, after inspection.

Subject to compliance, we will repair, replace, or refund at our discretion.

We accept no further liability for Goods if:

You fail to notify us as required;

Goods are used after such notice;

Defects arise from failure to follow instructions, normal wear and tear, misuse, alteration, negligence, or damage by you, your agents, or third parties.

You bear the risk and cost of returning Goods.

Acceptance is deemed on inspection or within five days after delivery, whichever is sooner.

8. Risk and Title

Risk passes to you upon completion of delivery.

Title passes only when full payment is received for all Goods and services supplied to you.

Until title passes, you must:

Hold Goods on a fiduciary basis as our bailee;

Store Goods separately, keeping all identification intact;

Keep Goods in satisfactory condition, insured for their full value.

We reserve the right to recover Goods at any time before title passes if payment is outstanding.

9. Termination

We may terminate any sale if:

You breach these Terms materially;

You become insolvent, enter liquidation, administration, or similar proceedings;

You convene meetings or arrangements with creditors.

10. Limitation of Liability

Our total liability is limited to the price paid for the Goods.

We are not liable for:

Indirect, special, or consequential loss;

Loss of profit, business, data, goodwill, or third-party claims;

Delay or failure caused by circumstances beyond our control;

Losses due to your breach of obligations;

Suitability or use of Goods for your purpose.

Nothing excludes liability for death or personal injury caused by our negligence, or fraud.

11. Communications

All notices must be in writing and signed by an authorised party.

Notices are deemed delivered: upon delivery by courier; upon successful fax or email transmission; five business days after posting by regular mail; or ten business days after airmail.

Notices must be addressed to the most recently notified address or contact.

All communications should be directed to sales@sterlingsep.com.

12. Data Protection

When providing Goods, we may process personal data of your employees.

You are the data controller and we are the data processor under UK GDPR (as amended, extended, or replaced).

We only process data as required to fulfil our obligations or as agreed, and do not retain personal data longer than necessary.

We do not disclose data to third parties except as required for fulfilment, or by law.

We maintain appropriate security measures as outlined in our Data Protection Policy (available on request). For any data queries or complaints, please contact sales@sterlingsep.com.

13. Force Majeure

Neither party is liable for failure or delay caused by circumstances beyond reasonable control, including industrial action, fire, flood, terrorism, war, or government intervention.

14. General

No waiver of any breach constitutes a waiver of any subsequent breach.

If any term is held invalid or unenforceable, the remainder shall remain valid.

This contract is governed by and construed according to the laws of England, with all disputes subject to the exclusive jurisdiction of the English courts.
