Accessories								
CSR150STD & CSR450STD		Stand raises CSR150 or 450 by ~300mm where access to drain requires extra slope						
CSEQ3	*Splits condensate flow into 2 or 3 equal streams for successful multiple installations.							
Designed to meet or exceed current environmental legislation when correctly selected and installed; all sizes are based on well maintained compressor plant using mineral or mineral-based lubricants. For PAG lubricants, reduce stated capacity by 50% or use AF model

## STERLING Autodrains

First, choose the right type of drain for your application  
Take a look at the table below for at-a-glance benefits of each type

Type	Purchase cost	Running cost	Ease of Installation	Maintenance	System alarms	Comments
Timer controlled	Low	High	Very flexible	Low	None	Will waste a lot of compressed air
Float operated	Low / medium	Medium	Clean sites are best	Medium	Usually none	Not ideal on old or corroded plant
Hybrid	Medium	Low / medium	Very flexible	Low	None	A good, well balanced solution
Zero loss electronic	Relatively high	Low	Follow the book, it's important	Medium	From simple to comprehensive	Long term cost saver when installed correctly and serviced regularly

## STERLING Autodrains (cont'd)

### Hybrid autodrain (timer + liquid sensor)

This drain has a fixed interval, but the built-in condensate sensor automatically adjusts the 'open' time according to the amount of moisture that's accumulated. This minimises the volume of air that's lost during operation, but simplifies the installation because the drain can never get air-locked. For convenience, it can also be installed in various orientations. Suitable for up to 2000cfm (60m<sup>3</sup>/min)

AD950T

Part code	Description	Pressure	Interval time	Open time	Price	5+ (ea)
AD950T230	AD 950 T Intelligent timed drain 230vac 3/8"BSP & 3/8" hose	0-80 bar	Fixed	Automatic	£169.00	£158
AD950T110	AD 950 T Intelligent timed drain 110vac 3/8"BSP & 3/8" hose	0-16 bar	Fixed	Automatic	£169.00	£158
AD950T24	AD 950 T Intelligent timed drain 24vdc 3/8"BSP & 3/8" hose	0-16 bar	Fixed	Automatic	£169.00	£158

### Float controlled autodrain

Float drain for use on a drip leg etc. Features a polycarbonate bowl protected by an aluminium housing.

CS402

CS20B

Mechanical float drain for general use including receivers and distributed sites where there is no power. Heavy duty body and rugged internals.

Part code	Description	Pressure	Capacity	Price
CS402	CS 402 - 1/2" Mechanical float drain	0-10 bar	< 400 cfm < 12 m <sup>3</sup> /min	£41.00
CS20B	CS 20B - 1/2" Heavy duty float drain	0-16 bar	< 4000 cfm < 120 m <sup>3</sup> /min	£82.00

## STERLING Autodrains (cont'd)

### Electronic Zero-loss drains

### ZL1300 & ZL5000

ZL1300

Air operated diaphragm valve for high flow and reliability

ZL5000

STERLING ZL1300 & ZL5000 are electronic zero-loss condensate drains designed and built to the most exacting standards. Both versions provide long-term reliability, high capacity 1300 or 5000cfm (37 or 140 m<sup>3</sup>/min), and exceptionally low running costs.

Incorporating an internal strainer, local alarm, optional contacts for a remote alarm, override test button, and rated for IP65 protection - ZL1300 & ZL5000 offer the highest quality solution with rapid payback in compressed air savings.

Part code	Description	Capacity	Max pressure	Top inlet	Price
ZL1300-220	Zero loss Heavy Duty Autodrain 1/2" BSP 220vac	1300 cfm (37 m <sup>3</sup> /min)	16 bar	n/a	£461.00

### Electronic Zero-loss drains (cont'd)

EMD 12, 25, 75 &amp; 150

The STERLING EMD is an electronic zero-loss condensate drain designed and built to the most exacting standards to provide long-term reliability and exceptionally low running costs. EMD is a modular drain with an easily accessible strainer that can be removed for cleaning while the drain remains installed. The low cost service module is also quickly and easily replaced.

The EMD\*\*\*A version offers powered connection for a remote-sited alarm

These drains can be installed either "vertically" (in normal use such as under an air receiver), or "horizontally" as illustrated right to simplify use with filters etc.

It is recommended that in locations where significant debris is carried by the condensate, the preferred orientation is the more conventional 'vertical' option.

### Capacity table (Other details & prices on next page)

MODEL	Capacity (Receiver)	Capacity (Dryer)	Capacity (Filter)	Max liquid Drainage volume (at 7bar)
EMD12	310 cfm (8.8 m3/m)	620 cfm (18.5 m3/m)	3100 cfm (93 m3/m)	12 l/hr
EMD25	650 cfm (18.2 m3/m)	1300 cfm (36.4 m3/m)	6500 cfm (193 m3/m)	25 l/hr
EMD75	1940 cfm (55 m3/m)	3800 cfm (110 m3/m)	19400 cfm (580 m3/m)	75 l/hr
EMD150	3880 cfm (110 m3/m)	7760 cfm (220 m3/m)	38800 cfm (1160 m3/m)	150 l/hr

## Service kits to fit other oil/water separators

**Lightweight, clean and long lasting, STERLING's** service kits for other separators use our proprietary blend of media instead of activated carbon.

There's no glass fibre used, and they **do not require pre-soaking**.

We've listed the most popular brands, but if you can't see the one you need,  
**call us - we can probably help!**

# A brand new range of compressed air filter housings and elements

effective, efficient, economical

it's **PREMIUM**  
compressed air filtration

## “What’s premium about then?”

- Differential pressure gauge & drain fitted as standard
- High quality smooth coated internals
- Powder coated external finish
- ‘Push fit’ quick fittings on drain connections
- Manual override provided to exercise the drain
- Precision bowl threads with positive ‘click’ close
- Generously proportioned for high flow and low pressure drop
- Easily identified grades - elements have colour coded caps
- Double ‘O’ ring element seals
- Beautifully engineered and finished to the highest standard

## PREMIUM compressed air filtration

At STERLING, we've been known for our great value, excellent customer service and wide range of available stock for a number of years.

Added to that, STERLING encompasses a wealth of industry knowledge collected during more than a century of real world experience in compressed air.

Nowhere is that experience more valuable than in the field of air filtration where the overlapping brands and versions are a minefield for the service provider.

We share our experience on legacy systems freely with our partners, and will continue to do so - but this new range takes a refreshingly different position.

Our PREMIUM filters bring you quality build and performance, allied to a range of housings complete with DPG and drain, and the filtration grades you need - from stock with STERLING's usual keen value as a bonus.

## Alternative elements

### to fit virtually any OEM or branded filter

These are high quality alternative elements built with attention to the same international standards as the originals

If you can't find what you need here, go to [www.sterlingsep.com](http://www.sterlingsep.com) and register for the FilterFinder in the products section

**We list below our most requested filter lines. Please note that many manufacturers' products will fit multiple different housing brands so if you can't find what you need please contact us - we can probably supply what you need!**

Note the new addition of filter housing drains

<a href="#">ABAC</a>	<a href="#">A F E</a>	<a href="#">Alup</a>	<a href="#">Atlas Copco</a>

## Condensate testing

STERLING's laboratory is equipped with high quality modern equipment capable of measuring the levels of oil in water to an accuracy of +/- 1 part per million.

If you'd like us to run a test for you or your customer either to check an installation or prior to quoting a new system, we'll need a representative sample of at least 500ml of condensate, and some details about the installation if applicable. For more information, please contact sales.

### **The service costs £50 which includes your printed report**

*Please note: This facility is offered as a service to customers, which will be performed correctly and reported accurately. However, we do not claim to operate a certified laboratory and if your requirement is for legal or similar purposes we recommend that you seek external and independent advice.*

## Training

STERLING's team has amassed many years of real world experience in condensate management; that's practical experience that you can't buy - yet it's important because there are so many variables to deal with.

We offer training courses on condensate management in general, and on our products in particular at a level to suit your team. For a general understanding of the topic and to gain a good awareness of the key to a good and trouble-free system should take no more than 2 to 3 hours

We'll come to you by appointment, and we're happy either to work with one individual or a group, whether sales or service biased and we'll tailor the content to suit.

### **Training services are usually free of charge to STERLING customers**
